

## GOLF AND A WHOLE LOT MORE

Morocco has long been a notorious and popular destination for professional golfers (first course built at the Tangier Country Club in 1917).

Morocco claims to be second-to-none with its unique combination of golf plus everything Morocco has to offer: **culture, seaside, adventure, wellness...**

A visit to the golf courses scattered across the kingdom is guaranteed to be a unique experience that can only be found in a country with such diverse landscapes.

To date, **Morocco has 18 courses**, but this number will more than double by 2015!

## ✦ THE INSIDER'S GUIDE

- Greens fees in Morocco are very competitive in terms of value for money. And most of the regular airlines offer an extra baggage allowance for golfing equipment.
- Most 5-star hotels in Marrakech, Agadir, Tangier, El Jadida and Rabat provide free shuttle service to the golf courses and have spas offering wellness treatments for people accompanying golfers who are not playing.
- The golf course of Meknes is one of the only courses in the world that is lighted at night.
- Morocco's new golf courses have environmentally-conscious features and use a water reprocessing system to water the grounds. The Mazagan green, for example, is covered with Platinum Paspalum, a highly durable turf that tolerates brackish and recycled water.

## REASONS TO GO
